
Proceedings of the Sixth National Seminar on Ferroelectrics and Dielectrics

FOREWORD

This special issue of the Bulletin of Materials Science contains 12 papers presented at the Sixth National Seminar on Ferroelectrics and Dielectrics held at the Kakatiya University, Warangal during 17–19 December 1990. The topics include theoretical studies, general aspects of behaviour of ferroelectrics and dielectrics and applications.

The editors are grateful to the authors for sending their manuscripts in time. Thanks are also due to Prof. H L Bhat, IISc., Bangalore for his assistance. The encouragement and help received from Prof. Dinker Sirdeshmukh as Chairman of the Local Organizing Committee and the assistance of the staff of the Physics Department, Kakatiya University are gratefully acknowledged.
