Acknowledgement:

The authors would like to thank National Aerospace Laboratory ([NAL](#)) for allowing us to conduct wind tunnel test. The authors would also like to thank [Shashank Shivkumar](#), [Susheel Balasubramaniam](#), [Eshaan Khanapuri](#), [Kuntal Ghosh](#) for helping us in conducting wind tunnel test and flow simulation.

Funding Information:

The work is funded under National Programme for Micro Air Vehicle (NP-[MICAV](#)) project of Defence Research Development Organization ([DRDO](#)). The authors would like to thank Aeronautics Research and Development Board ([ARDB](#)) for their funding and support for the project.
