

## Angewandte Corrigendum

In this Communication, the confocal microscopy images given for compounds **10** and **11** in Figure 3 A were found to be incorrect. However, the original images given in the Supporting Information (Figure S48) for compounds **10** and **11** are correct and remain unchanged. The correct microscopy images for Figure 3 A are given below.

Furthermore, in Figure 4 D, the label on the vertical axis should be “Uptake (%)” instead of “Inhibition (%)”.

These errors do not affect the results or conclusions of this Communication. The authors apologize for these mistakes.

The Remarkable Effect of Halogen Substitution on the Membrane Transport of Fluorescent Molecules in Living Cells
